

## DIGITAL VIEWING GUIDE

Thank you for joining Texas Ballet Theater for a digital performance! If you'd like to watch the performance on your TV, click on the blue text below that corresponds with your device. To get the best quality when viewing on your TV, we recommend connecting your device via an HDMI cable. [Click here](#) for an overview about connecting with an HDMI cable.

### OPERATING SYSTEM

- [Windows 10](#)
- [Mac, iOS, and iPadOS](#)

### TV BRANDS

- [LG](#)
- [Samsung](#)
- [Vizio](#)

### STREAMING DEVICES

- [Amazon Fire Stick](#)
- [Roku](#)
- [Google Chromecast](#)
- [Apple TV](#)

### HDMI AND OTHER CABLES

### TROUBLESHOOTING

If the streaming quality is low, there are many factors that could be affecting your stream. Here are a few suggestions that may solve your problem:

- Check for other devices using the internet. The fewer devices using the internet, the better quality your video may be.
- Restart your computer.
- Restart your modem and wireless router.

For other issues, try clearing your browser cache, making sure your browser is up to date, or disabling plugins or add-ons, then refreshing the page.
